## EXECUTIVE SUMMARY

We have the pleasure to introduce K-ONE MABATI & STEEL LLP to your firm/ organization. We are one stop roofing solutions manufacturer and supplies company. Our firm is registered in Kenya and incorporated as K-ONE MABATI & STEEL LLP.

We always stick to the agreed-upon timetable and work plan, and we plan with the best of our company's experience and expertise to reach our goals. This type of planning guarantees that we stay on schedule while still adhering to tight quality assurance standards.

We don't work alone; we work together to make sure that our technologies and service delivery are synchronized to reliably supply high-quality products wherever they are delivered. In order to ensure that we are accessible, we have teamed with a top providers of building supplies. Talk to us today to get a long-life roofing partner to walk with you through the journey.

KENYAONE MABATI & STEEL commit that every project receives a central part of our company's attention and resources that we will do everything possible to make it timely and successful.  
Kind regards.

Our products are of high precision and quality. They are not only excellent in exterior decorative, compact ability and anti-corrosion but also have the character of high paint adhesion to keep the bright and beautiful colour for a long time (15 year warranty).

All of our profiles have an aluminium and zinc coating that makes them resistant to the local weather. our roofing solutions are more resistant to heat and rust. This makes our products best for residential and commercial projects

We have invested on our fleet of vehicles to ensure timely and well handled deliveries country wide.

Managing Director

## OUR HISTORY

### About KENYAONE MABATI & STEEL FACTORY

Kenyaone Mabati & Steel Ltd is one of the Kenya's leading enterprises in production of roofing and construction materials industry. We are located in Kitengela, along Namanga Road.

We focus on the clients' needs, providing Products and solutions with professionalism, ensuring client satisfaction.

We started off as a single roofing profile maker five years ago, but today we produce over six roofing profiles and accessories with a capacity of moving 500000+ meters annually.

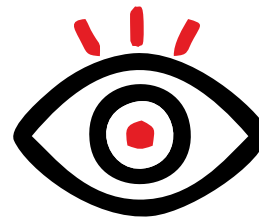

To ensure that we only produce the best products in accordance with the most recent international standards, we have invested in and introduced high quality pre-painted Al-Zc coils as well as high quality profiling machines.

In order to increase efficiency and service delivery to our cherished clients, our company have deliberately pursued the Kaizen business philosophy. We pride ourselves in continuous improvements in our business processes, systems and procedures.

We have dedicated our goals and objectives to the greater good of providing the greatest products and services to the construction industry, which is expanding quickly. In our opinion, we provide every client we have in the area, whether directly or indirectly, with a lifetime of sheltering experiences rather than merely supplying roofing sheets. We handle people with honesty, and our company policy is to develop trust with both current and potential consumers.

Talk to us today to get a long-life roofing partner to walk with you through the journey.
